Case Study

Managers at Clifton leisure centre want to attract more customers. They have improved the Gym facilities with updated equipment. They have also hired a new trained fitness instructor. One of the managers argues that before starting on their marketing campaign they should collect some information about their target customer which includes; the age range and occupation. (10)

1. How important it is for them to classify the centre’s users?
2. Explain why this sort of data is helpful?
