

ASSESSMENT # 5

Total Marks: 30

Give short answers for the following questions: (21)

- i. What is meant by 'binary colours'?
- ii. The grey colour is formed when black is mixed with white. Is it a warm or cool colour? How do you think it can be used effectively in creating an attractive colour scheme?
- iii. Which of the following colours should a stout person wear - Dark or light - and why?
- iv. If you want to create the illusion of height and slimness using colour, how would you do it?
- v. 'Wearing black for a grey-haired lady is the most suitable choice'. But how should she wear this in the best possible way?
- vi. For a person with a sallow complexion, which type of colour is the best choice, and why?
- vii. Which types of colours would be more suitable for a blonde person's dress?

Activity

Collect fabric swatches for different colour harmonies. Also, name the colour scheme. Create a contrasting colour harmony using at least three colours of your choice. Design a fabric using at least three colours. (9)
